**RE: 2004 Transportation Plan and
Consistency with the 2005 Comprehensive Plan**

Dear Agency Staff or Reader:

The 2004 Transportation Plan became outdated with the adoption of the 2005 Comprehensive Plan. The Transportation Element text was amended in the Introduction, Multimodal/Intermodal Transportation Facilities, and the Air Transportation Facilities sections of the Comprehensive Plan that supercede those in the Transportation Plan. The changes to the text in the Air Transportation Facilities section involved more information and clarification on the 1978 Mediated Agreement Paine Field Airport.

An update of the Transportation Plan may be undertaken as part of the 2006 or 2007 Comprehensive Plan update to address changes needed for airport compatibility. The City plans to work with Paine Field Airport, WSDOT Aviation Division, and PSRC. We apologize for the inconvenience that this might cause a reader having to refer to two documents.

If you have questions regarding the Comprehensive Plan Amendments, please do not hesitate to call me at (425) 355-4141 ext. 226.

Sincerely,

Heather McCartney, FAICP
